

14:30 – 16:00. Panel Session 5. Environmental Modernisation of Industry and Infrastructure: Role of Leaders

Zaryadye Park, Lecture hall at Nature Centre (Zapovednoye Posol'stvo)

Environmental modernisation of industry and urban infrastructure is the core of the environmental industrial policy. Best available techniques are considered as an internationally approved instrument for implementing this policy in Russia.

How effective this BAT-based policy is? What results are achieved by leading countries and cities around the world in the field of resource and energy efficiency enhancement, greenhouse gas and pollutant emissions reduction? What is the role of leading companies striving for better results, developing and implementing solutions that go beyond current requirements?

Co-moderators

Tatiana Guseva – Deputy Director, Research Institute 'Environmental Industrial Policy Centre', Russian BAT Bureau

Marit Hjort – Policy Analyst, co-ordinator for OECD's International Project 'Best Available Techniques (BAT) to Prevent and Control Industrial Pollution' (OECD)
